Headed to an open house or career fair? Bring this guide along and check out the top-of-the-line infocomm studies that the Institutes of Higher Learning offer.

## SCHOOL OF INFORMATION TECHNOLOGY

The Nanyang Polytechnic School of Information Technology offers diploma courses in Information Technology, Engineering Informatics, Business Informatics, Multimedia and Infocomm Technology and Business Enterprise IT, to meet the diverse and growing need for IT professionals in every sector of the economy.

Its students are engaged in an environment that instills within them an innovative mindset, enterprising spirit and imparts knowledge on the latest trends and technologies through industry-centric experiential learning. With attachments at the Centre for IT Innovation, students get a taste of real-life projects in authentic industry settings.

Students are also privileged to undergo a local or overseas industry attachment to gain the relevant work experience needed to gain adequate exposure and adapt to the industry's mindset.

### Courses Offered:

Diploma in Information Technology  
Diploma in Engineering Informatics  
Diploma in Business Informatics  
Diploma in Multimedia and Infocomm Technology  
Diploma in Business Enterprise IT

### Contact Information:

Nanyang Polytechnic  
School of Information Technology

# SCHOOL OF INFOCOMM TECHNOLOGY

The Ngee Ann Polytechnic School of InfoComm Technology (ICT) is a leader in providing quality education in IT, producing IT professionals who play crucial roles in driving and shaping the future of the industry. Established in 1982, it has produced about 8,000 infocomm professionals.

Its diplomas are internationally recognised, allowing ICT graduates to secure advanced standings at many renowned local and overseas universities. At the School of InfoComm Technology, students enjoy a total learning experience that allows them to specialise in niche areas of IT while broadening their perspectives through a wide selection of interdisciplinary studies.

## **Courses Offered:**

Diploma in Information Technology (IT)  
Diploma in Enterprise Information Technology Systems (EIT)  
Diploma in Mobile Business Solutions (MBS)  
Diploma in Multimedia and Animation (MMA)

## **Contact Information:**

Ngee Ann Polytechnic  
School of InfoComm Technology  
535 Clementi Road, Singapore 599489

# SCHOOL OF INFORMATION AND COMMUNICATIONS TECHNOLOGY

The Republic Polytechnic School of Information and Communications Technology (SIT) is currently the largest school in Republic Polytechnic, offering a number of full-time diploma programmes that exemplify the polytechnic's innovative Problem-Based Learning approach.

At SIT, students are nurtured to become all-rounded Info-Communications Technology (ICT) professionals with broad-based knowledge, life-long learning, team work, communication, inter-personal relationship and problem-solving skills that allow them to progress with the ever changing ICT landscapes.

### Courses Offered:

- Diploma in Business Applications (DBA)
- Diploma in Business Computing (DBC)
- Diploma in Information Technology (DIT)
- Diploma in Interactive and Digital Media (DIDM)
- Diploma in Information Technology Service Management (DSM)

### Contact Information:

# SCHOOL OF DIGITAL MEDIA AND INFOCOMM TECHNOLOGY

Established in 1980, the School of Digital Media and Infocomm Technology has played a pivotal role in providing media and infocomm training.

The school offers students the opportunity to get into an exciting and rewarding career in media and info-communications technology. Their graduates are gainfully employed in any industry as skilled Information Technology (IT), Info-Communications Technology (ICT) or Media professionals.

The School's curriculum is consistently updated to keep abreast with the latest industry advancements and to meet the demands of the local and overseas IT and Media industries. This provides its students with diverse learning opportunities and enables them to develop themselves to their fullest potential.

## Courses Offered:

- Diploma in Business Information Technology
- Diploma in Digital Media
- Diploma in Financial Informatics
- Diploma in Infocomm Security Management
- Diploma in Information Communication Technology
- Diploma in Information Technology
- Diploma in Music and Audio Technology

## Related Courses:

- Diploma in Creative Media Design
- Diploma in Games Design and Development

**TEMASEK**  
POLYTECHNIC

## TEMASEK INFORMATICS AND IT SCHOOL

Informatics embodies how people create solutions for people across multi-disciplinary domains, using IT. In essence, Informatics is 'IT for People'. The curriculum focuses on the use of IT to enrich the lives of others. At Temasek Informatics and IT School, students gain a strong foundation in IT as well as domain areas like financial services, digital media and cyber security.

Through this methodology, they nurture IT Professionals with the relevant skills who are able to deliver continued change and innovation to improve the world.

The rigor of its courses is recognised by local and international universities and many of their students pursue undergraduate degrees upon completing their courses. The school also emphasises the development of problem-solving and thinking skills, and cultivates communication and teamwork skills, so that their students graduate with professional work attitudes to contribute in a significant way to the organisations they join.

### Courses Offered:

- Diploma in Financial Business Informatics
- Diploma in Interactive Media Informatics
- Diploma in Cyber and Digital Security
- Diploma in Game and Entertainment Technology
- Diploma in Information Technology
- Diploma in Mobile and Wireless Computing

# SCHOOL OF COMPUTER ENGINEERING

At the Nanyang Technological University School of Computer Engineering, students are prepared for the fast-paced developments of the infocomm industry.

Its undergraduate programmes equip students with relevant knowledge and skills in their chosen areas of specialisation.

Computer Engineering integrates electronic engineering and computer science to enrich students with strong knowledge of the hardware and software of computer systems and applications.

Studies in Computer Science address the needs of students who are keen to focus on software design and construction.

The School's courses aim at motivating and stimulating students towards the practice of engineering through close links with the industry, the use of state-of-the-art hardware and software, and involvement of students in international competitions.

## Courses Offered:

Bachelor of Engineering (Computer Engineering)  
Bachelor of Engineering (Computer Science)  
Double Degree in Business and Computing  
Double Degree in Economics and Computing  
Integrated Bachelor of Engineering (Computer Science) with Georgia Institute of Technology's  
Master of Science (Computer Science)  
Service Science, Management and Engineering (SSME) Specialisation

## Contact Information

# SCHOOL OF COMPUTING

The National University of Singapore School of Computing offers students a full spectrum of professional specialisations, ranging from multimedia technology and information management to wireless technology and bioinformatics.

In addition to software construction, students are exposed to management skills and know-how on information technology resources deployment. With four-year programmes, students stand to gain an even more well-rounded education that grooms them as leaders for the digital economy.

For those seeking more than a basic degree, various double/concurrent degree programmes are also available.

## Courses Offered:

Bachelor of Computing (Honours) in Computer Science  
Bachelor of Computing (Honours) in Information Systems  
Bachelor of Computing (Honours) in Computer Engineering  
Bachelor of Computing (Honours) in Computational Biology  
Bachelor of Computing (Honours) in Communications and Media  
Bachelor of Computing (Honours) in Electronic Commerce  
Double Degree Programmes in Computer Science and Mathematics/Applied Mathematics  
Double Degree Programmes in Computing and Business Administration  
Concurrent Degree Programme in Interactive Digital Media

## Contact Information:

# SCHOOL OF INFORMATION SYSTEMS

At the Singapore Management University (SMU), the mission is to generate leading edge research with global impact, as well as produce broad-based, creative and entrepreneurial leaders for the knowledge-based economy.

The SMU School of Information Systems (SIS) extends this mission into the realm of business-focused information technology through a strategic partnership with Carnegie Mellon University in education and research. SIS focuses on business process innovation and transformation through the architecture, design and delivery of enterprise information systems. The aim is to develop students as IT-savvy business professionals or business-focused IT professionals in touch with industry needs. They are professionals who are able to integrate business and technology analysis and produce research that links theory and practical impact.

## Courses Offered:

Bachelor of Science in Information Systems Management  
Master of IT in Business (Financial Services)  
PhD in Information Systems  
Double degrees across all six SMU Schools

## Contact Information

Singapore Management University

# SCHOOL OF SCIENCE AND TECHNOLOGY

The Singapore Institute of Management University's School of Science and Technology (SST) imparts knowledge to its students through an entrepreneurial culture of innovation and collaboration to complement its unique offerings of teaching and research in science, technology and the management of these disciplines.

At SST, students are immersed in a unique learning experience that involves them through industry-relevant studies and thoroughly active engagements with the industry through collaborative partnerships.

## Courses Offered:

BSc / BSc (Honours) in Information and Communications Technology

BSc / BS (Honours) in Information Technology and Business
